CREATE AN ASPIRATIONAL SPACE FOR
BOTH ITS EMPLOYEES AND TO REPRESENT
THE BRAND.**

PROJECT OVERVIEW

In 2022 AstraZeneca UK relocated their HQ to an expansive office space spread over two floors in London's fastest-growing district. Ekho Studio – an independent creative studio, were enlisted to design this high-spec workspace, which utilises interior and outdoor spaces to improve the working environments and productivity of its users.

HOW WE HELPED

After an initial consultation with our customer to define the vision and understand the complexity of the project, the Woodworks bespoke timber solution was specified. In order to create a unique floor for this project, hand-crafted samples were provided to match product samples the customer already had, to show exactly what the final planks would look like in terms of colour, tone, texture and finish.

OUTCOME

This aspirational space, which takes inspiration from boutique hotel lounges, just shows the progression of workplace design since 2020. Panelling, carpet and wood floors are used harmoniously alongside soft finishings such as zoning curtains and comfortable seating. Biophilic objectives have been achieved through live planting and abundance of natural light.. The result is a dynamic office offering friendly spaces created for collaboration and interaction.

BESPOKE WOOD FLOOR BY WOODWORKS

By using our bespoke flooring service, you can experiment with pattern, scale, grade, texture, edge details, tone, finish and more to create a unique wood floor that you will find nowhere else on the planet.

Ordering one of our bespoke floors allows you to not only design the floor down to the smallest detail, but it's also created using a variety of handcrafting techniques in our Cheshire workshops so that the end result matches your specification perfectly.

Decades of experience shows us the importance of understanding each project's individual requirements – so we always work incredibly close with you to create a floor that complements the interior and works within your timeframe and budget.

Be sure not to limit your imagination, as no matter the project's challenges, Woodworks are on hand to bring your vision to life.

OUR CERTIFICATIONS EXPLAINED

We go above and beyond the usual environmental and sustainability standards, and have many third party accreditations.

In short, all of our timber (whether floors or wall cladding) follow the UK Timber Regulations as standard, which verifies that all of our timber is legally harvested.

All of our floors are also SVOC free and have low VOC emissions. SVOCs are pollutants at the molecular level which are emitted from synthetic man-made materials such as LVT, vinyl and plastics.

Talk to our team today about using sustainable wood flooring in your project.
